Lycée Français International de Delhi (LFID) has reopened its campus for the academic year 2021-22 for the in-person learning experience.

Keeping the current situation in mind, they will offer a blended learning experience to all its students. All students have resumed in-person classes and activities as per their regular schedule. Parents have demonstrated complete trust in the school management as they also opened up for in-person classes last year and there was no incidence of infection within the school premises.

The school has introduced health and safety guidelines, created in consultation with parents, teachers and students for maintaining a safe environment at the campus. They will continue to adhere to the protocols developed by their Covid Task Force.
